## 14th Strategic Energy Technology Plan (SET Plan) Conference 2020 on 23 and 24 November 2020

The Federal Ministry for Economic Affairs and Energy (BMWi) and the European Commission invite you to attend (online) the

### 14th Strategic Energy Technology Plan (SET Plan) Conference 2020 entitled 'Making the SET Plan fit for the EU Green Recovery' on 23 and 24 November 2020.

The European Strategic Energy Technology Plan (SET Plan) Conference 2020 is taking place in the context of Germany's Presidency of the Council of the European Union. The aim of the SET Plan is to foster cooperation between governments, industry and academia to align R&I priorities and accelerate the development and deployment of key energy technologies needed for the clean energy transition. SET Plan conferences offer decision makers, researchers and other stakeholders an opportunity to benchmark the progress made en route towards the goals of the SET Plan and to reflect on the way forward. The focus of this year's conference will be on the contribution of the SET Plan to the new energy policies under the European Green Deal, namely energy system integration, hydrogen, offshore renewable energy and the renovation wave.

The opening speeches will be given by Peter Altmaier, Federal Minister for Economic Affairs and Energy, EU Commissioner for Energy Kadri Simson, and Mariya Gabriel, EU Commissioner for Innovation, Research, Culture, Education and Youth.

You can find the programme [here](#).

In order to be able to follow the live stream of the event, please register yourself [here](#). Shortly after accreditation, you will receive an email with the link to the live stream. The conference language will be English.
